

# Can't Take My Eyes Off

Be mesmerized by someone's presence

**A**ttraction is not just catching a glance. It's not being able to let go of it. To be unable to *take your eyes off* someone is to be so captivated that it's impossible to look away. The phrase gained poetic fame through love songs and literature, where it symbolizes admiration so intense that the rest of the world fades away. It's just too good to be true....

This idiom speaks to the enchantment of seeing someone who feels extraordinary to you—someone who suddenly becomes the center of your attention, perhaps even your world or even universe. Related phrases like *drawn to someone* or *love-struck* emphasize this magnetic allure.
